### About the show

#### Conficker

Conficker virus (April fool virus) Here's a [page of tools](#) that will analyze and help clean your computer if affected.

This is pretty techy stuff. If you're concerned, make sure your anti-virus software is up to date, and that all your windows patches are up to date and you should be fine. [Microsoft](#) has a page dedicated to the virus/worm with software that will [scan your computer](#) for it, and fix it if found.

The other easy test.. try going to [www.microsoft.com](#) if you can get there, your computer is probably fine.

Bottom line.. if you're up to date with your updates, have a good anti-virus program running, and don't open suspicious e-mail attachments, odds are you have nothing to worry about. But checking takes a minute and can't hurt.

#### CHIP Chairty..

CHIP was formed to assist long term hospital patients, especially those fighting catastrophic illnesses, stay in touch with family and friends when their own funds have been depleted.

Friday morning, March 20th. We broadcast live with a group of CFRB winners from the [Delta Chelsea hotel](#) in Downtown Toronto. The kids had a ton of fun playing on their indoor water slide :)

We've had a lot of calls from listeners wishing to participate in the [Highway of Heroes](#) vigils on the bridges when dead soldiers are making the journey from Trenton to Toronto.

The Department of Defence website offers an [RSS News Feed](#) and updated [Media Advisories](#) and [news page](#) with current details. The information lists the flight arrival time in Trenton. Following a ceremony the body generally leaves for Toronto 30 minutes later.

You have to calculate for yourself when the procession will be passing through your neighbourhood. Take the landing time, plus half an hour, plus travelling time to your destination.

**The National Defence website also has a page dedicated to our fallen Canadian Soldiers that you should take time to visit.**
